

1. The movement of all supplies moving into

The DRV would be slowed. Some local economic requirements would probably

have to go unfulfilled. More importantly,

the speed of getting military supplies into depots + thence thru the DRV

the DRV funnel would be + on to the battle area

considerably reduced, + ~~sub~~ delivery + perhaps even physical consignments schedules would be disrupted. ~~the~~

~~the~~ ^{normal} All the problems through a war disrupted primitive condition of supply would be greatly (?)

augmented
